Other Information:

Callaway Handicapping is a method used to "handicap the unhandicapped". This system is expected to help all golfers play on a similar level. We will be using the Callaway16. This means hole numbers 17 and 18 of your shotgun start will not be used to apply to the handicap system. Play your best on those two holes. Refer to <http://docs.golfgenius.com/article/show/23700-callaway-handicapping> for more information.

To also aid in the enjoyment of the scramble the following rules will apply:

1. Out of Bounds shall be played dropping the ball no closer than two club lengths from point of entry, no nearer the hole. Drop shall count as a stroke.
2. If both team members hit tee shots out of bounds, short of or in a hazard prior to first fairway cut, the ball shall be played from the first cut, center of the fairway. Drop shall count as a stroke. (In otherwords, if both players shank tee shots, a drop is allowed on the fairway).
3. Drop zones to be provided on all Par 3s.
4. Maximum putt count per hole = 3
